**International  
Building Code  
Overview**

**Thursdays  
April 22 & 29, 2010  
5:00 to 9:00 p.m.**

## International Building Code Overview

This fast-paced seminar explores the major provisions of the International Building Code. The presentation will introduce students to the provisions of the code including: occupancy classification, types of construction, means of egress, fire sprinklers and fire-resistive-rated construction, administrative provisions and accessibility. This class is designed to provide an introduction to the code. The class will also discuss the relationship between the contractor and the building department.

***Presented by Steve Thomas  
Colorado Code Consulting***
